## ISIMM Newsletter

April 2019

**Special Issue on International Journal of Nonlinear Mechanics.** We are about to complete the collection of papers for the special issue: "Mathematics & Mechanics: Natural Philosophy in the 21st Century", edited by Giuseppe Saccomandi, Anja Schlömerkemper and Giuseppe Tomassetti. Papers will appear in regular issues as soon as they are accepted, and then gathered in a online Virtual Special Issue.

**Philosophical Transactions of the Royal Society** We inform that a special issue dedicated to Ronald Rivlin is available online (<https://royalsocietypublishing.org/toc/rsta/377/2144>), edited by three ISIMM members Jerry Murphy, Michel Destrade and Giuseppe Saccomandi. Clearly this issue is of strong interest for our membership since Ronald has been one of the founders of the society. We invite you to have a look at the introduction "Rivlin's legacy in continuum mechanics and applied mathematics".

**ISIMM Prizes.** We are now opening nominations for the ISIMM Senior and Junior Prizes. Candidates need not be ISIMM members. The selection will be operated by the Executive Committee via a ballot. The rules for nominations are available at <http://isimm.unipg.it/award.html>. **The deadline for nominations July 1st, 2019.**

**Contributions to the society.** We remind our members that contributions, although not mandatory, are greatly appreciated, since they allow us to keep our activities running.

The recommended yearly contribution is 30 Euro. Individual contributions should be made to:
