

Newsletter No. 1 of January 2016

Appointments for 2016, and future President.

Dear Colleagues,

this New Year will see two main engagements for our small society.

The first one is the STAMM in Rome (Sept 5-9, 2016). As already announced, this will include the award ceremony for the ISIMM Prize 2016 to Roger Temam and the ISIMM Junior Prize 2016 to Antonio Segatti.

As you know, our meeting will be framed within the specific format of a INdAM (Istituto Nazionale di Alta Matematica) workshop. This helps in funding the event, which will be held at the INdAM headquarters, at the Città Universitaria of Rome.

The second main appointment will be the election of

- seven members of the Executive Committee (the H.-D. Alber, P. Colli, and A. Miranville will remain in charge till end of 2018).
- the “ticket” President and Secretary-Treasurer for the period 2017-2020.

Elections of the new EC members are due to take place in Autumn 2016. Members will be informed in due time on the corresponding procedures.

The “ticket” President and Secretary-Treasurer will also be elected this Autumn. Expression of candidatures are already invited. According to our Constitution, all ordinary members, namely members under 70 years of age, can be eligible as President. The candidate to Secretary-Treasurer is usually proposed by each intended President.

In the past the Secretary-Treasurer used to belong to the same institution as the President. Nowadays email and similar means offer the possibility of having them several hundreds of kilometers apart. This is presently the case, and was also the case with the previous team (L. Truskinovsky and D. Bigoni).

Thanking for your cooperation, we send our best wishes for a successful New Year.

Augusto Visintin and Ulisse Stefanelli
(President and Secretary-Treasurer for the period 2013-2016)
